Jalan Bina Karya Blok AA7 No.53, Pondok Kelapa, Jakarta Timur

I am an Informatics graduate from Gunadarma University with a GPA of 3.87 and a strong passion for building end-to-end digital solutions. My expertise spans full-stack web development, where I specialize in crafting modern, responsive frontends using React.js, supported by robust backends using Node.js and MongoDB. Additionally, I have hands-on experience in mobile app development with Flutter, including integrating machine learning models via TensorFlow Lite to deliver smart and seamless cross-platform applications

EDUCATION

Universitas Gunadarma <i>Bachelor, Informatics</i> GPA: 3.87/4.00	Jakarta July 2022 - August 2026
- Graduated with a GPA of 3.87 out of 4.00 - Focused on Web Development	
SMAN 59 Jakarta <i>High School, Science</i>	Jakarta June 2019 - May 2022

WORK EXPERIENCE

PT. JUARA ANGKUTAN SEJAHTERA LOGISTIK <i>Frontend Web Developer, Freelance</i>	Jakarta May 2025 - June 2025
- Engineered responsive user interfaces for JasExpress, a logistics and cargo shipping platform - Implemented modern React.js and Tailwind CSS architectures to deliver interactive and engaging web experiences - Developed modular UI components optimized for performance and enhanced user engagement - Ensured cross-browser consistency and responsive design across all screen breakpoints	

PORTFOLIO

Dokterklik (Full-Stack Doctor Appointment Web App)	
- Engineered an end-to-end medical booking platform utilizing React.js and Node.js with secure multi-role authentication for patients and doctors - Developed dynamic, real-time doctor schedule management and integrated an automated online payment gateway for seamless consultations	
CornDoc (Flutter AI-Powered Mobile App)	
- Developed a Flutter mobile application to detect corn leaf diseases locally using TensorFlow Lite for offline inference - Integrated camera/gallery processing and Firebase (Cloud Firestore & Storage) for detection history synchronization - Optimized user experience through fluid UI elements	

SKILLS

Soft Skill	Teamwork, Collaboration, Open-mindedness, Time Management, Work Ethic, Responsibility
Hard Skill	JavaScript, HTML, Node.js, PHP, React, CSS, MongoDB, Express.js, PostgreSQL
Software	Visual Studio Code, GitLab, Firebase, Canva, Postman, GitHub, Figma, Git

CERTIFICATION

React & Back-End with AI , Dicoding Indonesia, Nomor: ASAH/GRAD/XXVI-01/R891D5Y0666, 01 Jan 2026	
UI, Branding, and the Evolving Role of Designers in the AI Era , Google Developer Groups on Campus Universitas Gunadarma, Nomor: WYUIUX17012525PT, 01 Jan 2025	

COURSES

React & Back-End with AI	Online
<i>Dicoding Indonesia</i>	August 2025- January 2026
• Mastered modern web application development using React.js for frontend architecture • Integrated AI-based backend systems to enhance application capabilities and logic • Completed an intensive training program focused on scalable web architecture and data management • Implemented AI-powered features to optimize application performance and user experience	

LANGUAGE

Indonesia	English
<i>proficient</i>	<i>elementary</i>
